# VAISHNAVI R

vaishnaviradhu671@gmail.com | +91 8778741877 | linkedin.com/in/vaishnavi-radha-krishnan-a166792a3 | github.com/VA1262005 | Hosur, Tamil Nadu, India

## CAREER OBJECTIVE

Motivated final-year Computer Science Engineering student with a strong foundation in Data Structures, Algorithms, Object-Oriented Programming, Web Development, Artificial Intelligence and Machine Learning. Skilled in Java, C, Python and JavaScript, with hands-on experience in developing web applications and AI/ML-based solutions. Seeking an entry-level Software Engineer role at Achnet Technologies to contribute to AI/ML and user-facing application development while continuously improving technical and problem-solving skills.

## EDUCATION

**Bachelor of Engineering (B.E.) - Computer Science and Engineering Adhiyamaan College of Engineering, Hosur**
*CGPA: 7.47 / 10.0 (Upto 6th Sem) Start Date: August 2023 - Expected Graduation: May 2027*

**Higher Secondary Certificate (HSC) - Class XII Parimalam Matriculation Higher Secondary School, Hosur**
*Percentage: 75.0% Start Date: June 2022 - End Date: May 2023*

## TECHNICAL SKILLS

**Core Computer Science:** Data Structures, Algorithms, Object-Oriented Programming (OOP), Problem Solvin
**Programming Languages:** Java, Python (Basics), C, JavaScript, SQL
**Web Technologies:** HTML, CSS, JavaScript, REST APIs, Responsive Web Design
**Database:** MySQL, Relational Database Management Systems (RDBMS)
**Tools & Platforms:** VS Code, Eclipse, Git, GitHub, Power BI

## AREA OF INTEREST

Artificial Intelligence & Machine Learning • Software Development • Data Structures & Algorithms • Web Development • Full Stack Development

## PROJECTS

**Student Performance Analysis System** **Technologies: Python, MySQL, Power BI**

- Developed an interactive system to analyze and track student performance across 500+ academic records.
- Used Python for data extraction, preprocessing and transformation to generate performance-related KPIs.
- Integrated MySQL for structured data storage and retrieval.
- Created interactive visualization reports to support data-driven academic assessment and decision-making.

**Rural Sports Talent Detection System Using AI** **Technologies: Python, Machine Learning**

- Developed an AI-based application to identify and evaluate sports talent using physical assessment datasets.
- Performed data preprocessing and applied machine learning techniques for automated talent identification.
- Implemented model evaluation to assess prediction performance and improve the reliability of talent assessment.
- Designed a lightweight processing workflow with focus on efficient execution on resource-constrained devices.

## INTERNSHIP / EXPERIENCE

**Full Stack Development Intern | JRM Infotech** June 2026 – July2026 | Hosur, Tamil Nadu

- Developed dynamic and user-friendly web applications using frontend and backend technologies.
- Worked with MySQL database integration and REST API connectivity for application functionality.
- Gained practical understanding of frontend, backend and complete software development lifecycle.
- Improved code efficiency and problem-solving skills through hands-on development and collaborative projects.

**Artificial Intelligence Intern | Intern Certify** June 2025 – July2025 | Remote, India

- Gained hands-on experience with Artificial Intelligence, Machine Learning algorithms and Python programming.
- Performed data preprocessing and implemented machine learning models for automated data analysis.
- Worked on AI-based projects involving model implementation and performance evaluation.
- Strengthened analytical, problem-solving and technical skills through practical AI applications.

## CERTIFICATIONS & HACKATHONS

- NPTEL Certification – Human Computer Interaction (HCI)
- EXCELR Certification – Blockchain Technology and Industry Applications
- Smart India Hackathon (SIH) 2024 – Official Participant & Problem Solver
- VIT Bangalore – “AI TO GLOW” Hackathon Participant
