Interview Performance Report

Candidate: Vaishnavi Patil (test_candidate) | Date: September 11, 2026

Interview Type:	Aptitude & Logical Reasoning (Technical)
Target Role:	Software Engineer
Total Questions:	2
Status:	COMPLETED

OVERALL SCORE

57

out of 100

Evaluation Parameter Breakdown

Parameter	Average Score	Performance Level
Confidence & Vocabulary	50.0%	Needs Improvement
Grammar & Accuracy	50.0%	Needs Improvement
Communication & Speaking Pace	50.0%	Needs Improvement
Tone & Sentiment	50.0%	Needs Improvement
Filler Words Control	50.0%	Needs Improvement

Overall Feedback & Suggestions

OVERALL IMPRESSION:
The candidate showed promising potential but struggled to maintain composure, structure, or depth under pressure or technical complexity. With focused practice in answer structures, they can bring their scores up to the target level.

STRENGTHS:

WEAKNESSES:
• Frequent filler words (like 'um', 'like', 'you know') and hesitant pacing. Practice silent pausing instead of vocalizing hesitation.
• Slightly fluctuating camera focus. Try to align your webcam at eye level and keep a steady visual focus during answers.
• Answer explanations were a bit brief. Try to include more concrete examples and structure using the STAR method.

STRESS HANDLING:
The candidate's composure was stable. Stress handling was not actively simulated during this baseline mock session.

TECHNICAL PERFORMANCE:
Technical reasoning was not evaluated via coding challenges in this baseline session.

RECOMMENDATION:
Not recommended yet. We recommend multiple mock runs and review of the Composure lessons in the Learning Center.

Detailed Question Responses

Question 1: Simplify the expression: 12.5% of 120 plus 37.5% of 240.

Candidate Answer Transcript:

To multiply this, 12.5 percent of 120 is 15, and 37.5 percent of 240 is 90. We add these. Each fraction is computed and the sum is 105.

Speech Speed:	84.0 WPM (28 words)	**Filler Words:**	None detected
Sentiment:	Neutral	**Score:**	**100/100**

Grammar Analysis:

No grammar errors detected!

Keyword Matching:

Keywords Found: 105, percent, fraction, multiply, add, sum

Evaluator Feedback & Suggestions:

Correct! Your answer matches the required solution criteria and includes all expected elements.
